## ACCREDITATIONS AND TESTIMONIALS

### Testimonials

"I received the trousers this morning and everything has finally come together! All three fit wonderfully and are exactly what I was looking for! Thank you for the expedited shipping and the help with the orders... I will definitely be ordering from you in the future and will recommend your company to anyone looking for a top quality product and customer service. Thanks again,  
Danny"

"I just received my order and tried on the jacket and trousers. I want you to know that I am very thoroughly pleased and impressed with the quality of the jacket/trouser set. They fit perfectly and look very professional. You truly deliver a solid product. Thank you very much. I will be sure to make more orders in the future and I am positive me wearing this jacket/trouser set will market itself for you in the offshore oil & gas industry here in Thailand. Have a great day!  
Regards, Ryan"

"To whom it may concern. I'm lucky enough to work with an organization that supplies me with Sisley Uniforms. Originally I scoffed at the initial price of the Sisley gear, however over the years have come to appreciate the quality. I've spent a lifetime wearing emergency services uniforms in a few different continents, and have yet to find any that are harder wearing or more comfortable. Recently my two piece flight suit, which may I say I had been wearing for nearly four years, spent over six months being hand washed in a third-world country, and has endured the abuse very well. It might not be the most crisp uniform out there these days, but it still presents well to the public, and comfortably shrugs off the elements! However you folks are doing it, keep up the great quality!" - anonymous

"Product received today and I must say that they are amazing quality (I purchased similar gloves from another site as you did not have her size) And they don't compare. Thanks for your professional and courteous service Rachel  
Regards, Darren"

"My order arrived today and it fits perfectly. Thank you very much for an excellent product and great service.  
Regards Stewart"

"Thank you so much. My flying suits all arrived this afternoon and they fit perfectly - better than I ever got in the Air Force! I really appreciate your help and I am so grateful of your assistance. Please pass on my thanks and appreciation to all the team at Sisley!  
Kindest regards, Jayson"

### Points of Difference

- Australian Made and Owned
- Friendly and Informative Customer Service
- No Minimum Orders
- Made to Measure Sizing
- Sizing kits available for larger orders.
- Custom made uniforms tailored to your needs
- Wide range of products and services available
- 3-4 week manufacturing time on goods
- Very reasonable freight cost
- Discounts available on large orders (20+)
- Family owned business
- Quality products used

### Accreditations:

ISO 9001:2008 Quality Management System Certified Since July 2011  
Australian Made and Manufactured Registered in August 2010  
Ethical Clothing first Accredited on 23rd May 2013

## COMPANY PROFILE

Matthew and Sharon Sisley are the directors of Sisley Clothing Australia. We are a family owned company established in 1997, and have grown to become one of Australia's most recognized providers of high quality Aviation clothing. We specialize in manufacturing Nomex® flight suits and Protective clothing for a range of services, from EMS, Oil & Gas. In addition, Sisley supplies a full range of Fire Retardant items including thermals and gloves and other accessories from skull caps to boots. We also offer embroidery services, high visibility work wear and a military inspired fashion range.

Sisley Clothing Australia works to the highest standards of quality craftsmanship being certified with ISO 9001:2008. Fused with cutting edge textiles and technology to create your corporate image, we are committed to understand, meet and exceed our Customer's requirements through the continuous improvement of our processes. We are dedicated to delivering defect-free, product on-time, at the most competitive cost possible. Sisley Clothing prides ourselves with outstanding customer service by offering made to measure sizing, no minimum orders and customised styling of the garments to meet the needs of the customer.

We are also proud distributors of Alpha Industries clothing, Workcraft Workwear and resellers for Gentex Helmets.

So whether you are up in the air, on the ground or by the sea, Sisley Clothing can provide intelligent protection for your most demanding and intensive needs.

## FABRIC SPECIFICATIONS

### Nomex® Fabrics For Flight Suits

Nomex® Delta C, Nomex® 111A and Nomex® FR Lenzing fabrics are inherently flame resistant and will never melt. The Fabric will protect the wearer from heat and flame of a flash fire. It also provides valuable seconds of protection for escape and minimising the potential for burn injury. Protection is inherent, "built into" the molecular structure of the fibre itself. It does not come from chemical treatment or add-ons. This means that the flame and heat resistance of Nomex® garments is stable and permanent and will not 'wash out'.

#### All colours 150, 175 & 200gsm (except Dark Navy)

Black, Navy, Royal, Tan, Red, Yellow, Orange, Sage, Medical Green, Spruce Green and Lime Green

Nomex® Delta C

Content 93% Nomex®, 5% Kevlar, 2% P140 Carbon Fibre

Nomex® 111A

Content 92% Nomex®, 5% Kevlar, 3% P140 Carbon Fibre

#### 160 & 200gsm Dark Navy:

Nomex® Fire Retardant Lenzing Blend is extremely comfortable with added moisture absorption and resistant to most common acids and chemicals.

200gsm Content 70% Nomex®, 30% FR Lenzing

160gsm Content 50% Nomex®, 50% FR Lenzing

#### Sisley All Rounder Jumper 424gsm

Polartec® Wind Pro® FR fabric is the reference standard for flame resistance, and is 4-times more wind resistant than a traditional fleece. The fabric is permanently flame resistant and will not melt or drip on the skin when exposed to heat or flame. Additionally, the fabric provides warmth, outstanding breathability, lightweight comfort and water repellency.

#### Sisley Bomber Jacket

Polartec® Power Stretch® FR Lining is 356gsm and offers superior flame resistance without sacrificing standard Power Stretch® performance features of moisture wicking, 4-way stretch and comfort. These lightweight fabrics do not restrict the movement of body moisture vapor, providing all day comfort and breathability.

Outer Layer is Nomex® Fabric of your choice.

#### Quilted Lining for Jackets, Trousers or One Piece Suits

CALDURA® Silver SL2 is the ultimate in thermal barrier fabrics for turn out gear. It combines two thin layers of a Nomex/Kevlar E89 non-woven, and the premier CALDURA® face cloth that provides a slick surface allowing you to move in and out of your garment with ease. Unmatched wickability moves perspiration away from your body to keep you drier. Excellent pilling resistance and soft, slick hand for maximum comfort. The thinnest, light weight thermal protection available.

#### Aerotech Dark Navy Fabric

Dark Navy 160gsm Nomex® on the outside and has a Tri-laminate on the inside. The membrane ensures the garment is 100% Waterproof & 100% Wind Proof. The FR fabric on the outside has a water repellent treatment to make the garment not get wet and heavy.

#### Power Dry T-Shirt

Polartec® Power Dry® FR 176gsm, performance features combine both permanent moisture management with permanent flame resistance. Featuring Polartec® patented bi-component knit construction that uses different yarns on either side of the fabric. This creates two different surfaces: one that is optimized to move moisture away from the skin, the other to dry quickly.

#### Kevlar Fabric For Knee Padding

Black Kevlar fabric is inherently flame retardant. The finished coated fabric is flame retardant and has excellent tear, puncture and abrasion resistance with good resistance to Ozone, UV and Light mineral oils.

#### Nomex® & Nomex® Blended Fabric Washing Instructions

Machine washable cold-warm

Tumble dry at moderate temperature

Line dry out of direct sunlight

Do not use bleach

Steam iron

Dry cleanable

It is recommended to wash the garment inside out and in a separate wash & air drying to avoid extra pilling and to reduce ageing of the garment. Avoid constant rubbing on other fabrics or things as this will cause pilling.

Fabric Swatches and further fabric specifications available on request.

Other FR Fabrics such as Tecasafe Plus, Proban, Indura Ultrasoft & Endurance also available. Minimums apply.

## GENTEX® HELMETS

### GENTEX® Helicopter Helmet HGU-56/P

New design features and options improve the fit, functionality, mission adaptability and head protection for all aircrew who wear the HGU-56/P helmet.

- Improved communications clarity
- Lightweight construction improves long-term comfort
- Reduced noise levels protect against hearing loss
- Superior side impact protection
- Custom fit Thermoplastic Liner (TPL) for increased comfort
- Dual visor provides clear and sunshade protection; laser visor optional
- Integrated design mounts for NVG, displays and night-vision goggles
- Improved chinstrap and retention system reduces aircrew impact injury
- Compatible with a variety of NBC masks

Size: XXS, XS, S, M, L & XL

Colours: Solar White, Coast Guard Blue or Aircraft Green (other colours available on request).

**GENTEX®**  
Authorised GENTEX® Reseller

### GENTEX® Helicopter Helmet SPH-5

The SPH-5 is the world's leading Helicopter Helmet and is the most commonly used helmet in the international market place. Developed by GENTEX®, it provides superior protection and comfort in a lightweight design.

- A strong, lightweight composite shell and polystyrene energy-absorbing liner effectively protect the head from impact.
- The Gentex TPL® is a patented lightweight thermoplastic liner that optimizes overall head fit and comfort.
- A wide yoke-style retention system stabilizes the helmet and affords an optimum fit to the earcups, as well as the chin and nape areas.
- Earcups screen out excessive noise levels that can impair hearing. They can be rotated within the retention system for enhanced fit and sound attenuation
- Lightweight dual or single visor system protects the eyes from glare, wind and dust.
- Incorporates a boom-mounted adjustable microphone, swivel assembly, dual earphones, a communications cord, and a microphone cord.

Size: S, Reg, XL & 2XL

Colours: White (Other colours available on request)

Each Helmet comes with a complimentary Helmet Bag & two Sisley Skull Caps. Items can also be purchased separately.

**GENTEX®**  
Authorised GENTEX® Reseller
